

SECURITY INFORMATION

SUBJECTS COVERED BY ORR PROJECTS ON THE ECONOMY OF COMMUNIST CHINA

I. Projects in Process or Completed, 1952

A. Completed, 1952

Petroleum (Part A)  
Shipbuilding

B. In Progress, 1952

Petroleum (Part B)  
Economic Organization  
Armament, Input Requirements

II. Projects Planned for the Calendar Year 1953

A. Projects Devoted Entirely to Communist China

Aircraft including Engines  
Ammunition, Input Requirements  
Engineering Industries  
Electric Systems, Manchuria  
Electric Power, Communist China  
Industrial Labor Force  
Railroad Construction  
Transportation - Organization, Traffic and Statistics (3)  
Foreign Trade (2)  
Balance of Payments  
Organization of Selected Industries (2)  
Economic Organization, North Korea  
Economic Estimates Handbook  
Economic Development (2)  
Agriculture (2)  
Ferrous Metals

B. Projects Dealing in Part with Communist China

(As a rough approximation, 10 percent of this research effort will be devoted to Communist China.)

Carbon and Graphite Electrodes  
Railroad Equipment, Inputs

SECRET

S-E-C-R-E-T

Oil Refining and Chemical Processing Equipment  
Metallurgical Equipment  
Automotive Equipment  
Storage and Primary Batteries  
Radar and Electronic Equipment (5)  
Communications Equipment (2)  
Electrical Machinery and Equipment (6)  
Gas Turbines  
Machine Tools (2)  
Textile Equipment  
Forges and Presses (2)  
Aircraft Production Machinery  
Armament, Production and Trade (3)  
Combat and Field Maintenance Equipment (2)  
Agriculture and Forestry (8)  
Ferrous Metals and Ferro-alloys (7)  
Non-ferrous Metals  
Rayon Tire Cord  
Carbon Black  
Bead Wire  
Thermosetting Type Plates  
Synthetic Plastics  
Metallurgical Coke  
Manufactured Gas  
Coke Chemicals  
Gasification of Coal

NOTE: Figures in parentheses indicate number of projects planned relating to these subjects.
